

Creating PDF files from PC MicroSoft Office

Copy the file **"CreoDistillerAssistant"** to your Adobe Acrobat folder, Distiller folder, Startup folder. **Note:** Delete any file named "Example.ps" from Distiller's Startup folder. This file can interfere with the proper operation of the Creo Distiller Assistant.

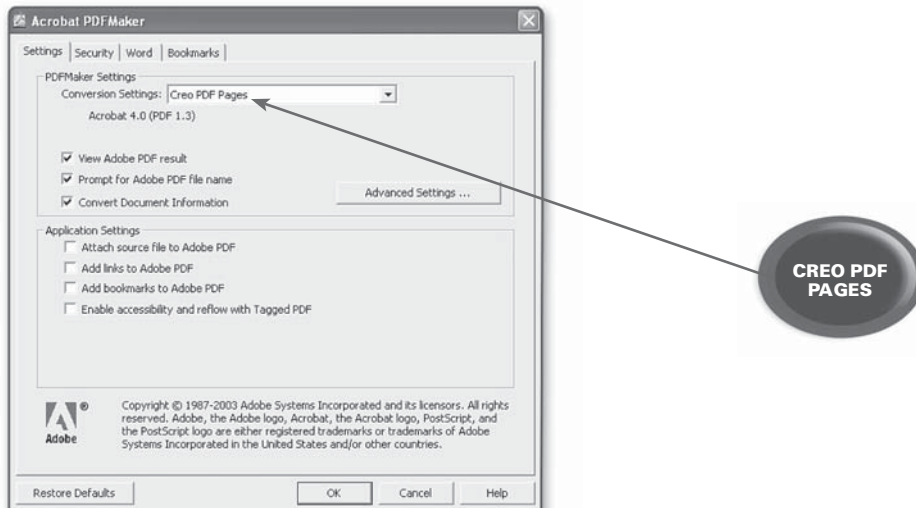

Copy the file **"Creo PDF Pages.joboptions"** to your Adobe Acrobat folder, Distiller folder, Settings folder.

Restart Acrobat Distiller. **Note:** This software is compatible with Adobe Acrobat 4.0 (or newer) for Windows.

1. Choose **Change Conversion Settings** from the Adobe PDF drop down tab.

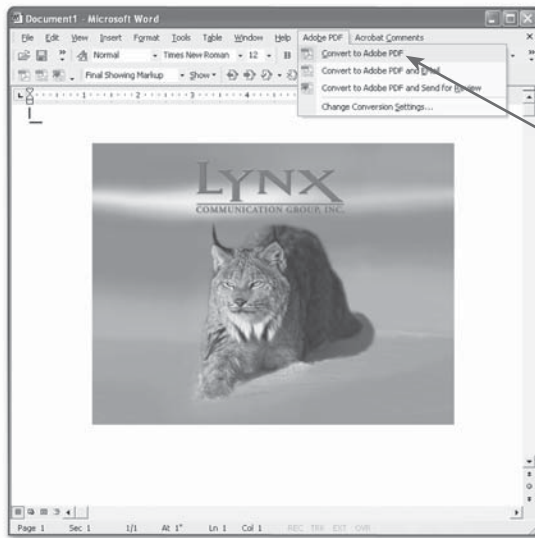

2. Match the settings as shown below with **Creo PDF Pages** selected as your conversion settings.

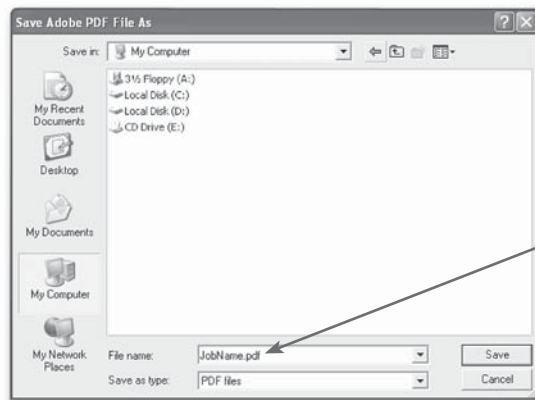

3. Select the button to save your settings.

POSTSCRIPT

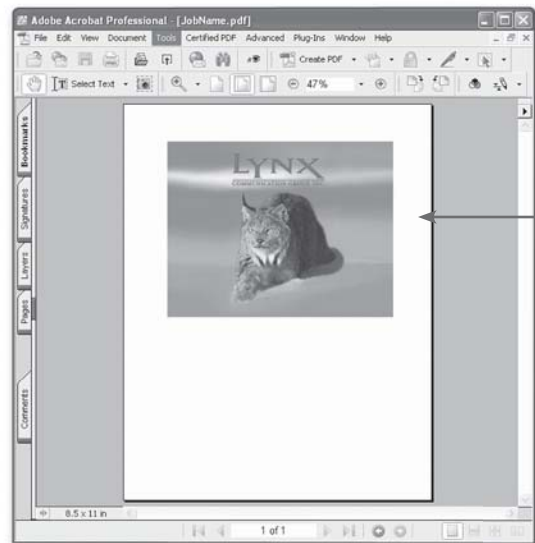

4. Choose **Convert to Adobe PDF** from the Adobe PDF drop down tab.

5. Name the file with the “.pdf” file extension. Avoid using spaces, special characters, forward slashes or hyphens.

6. The file will be saved to a PDF file. Acrobat will automatically open the file upon completion. Please take a moment to view the PDF file, making sure it looks as you intended.
